

Cancer Survivorship Workshop Highlights:

- ✚ Benefits of exercise on physical functioning, weight management, fatigue, quality of life, depression, anxiety, body image, and sleep.
- ✚ Explore relationships between sleep, stress, and fatigue on the stress response affecting immune function, memory, bone metabolism, weight, and potential adrenal imbalances.
- ✚ Updates on evidence-based recommendations to reduce your risk of cancer and/or recurrence. Vitamin D and other supplements will also be discussed.
- ✚ Therapeutic Yoga and Restorative Yoga (I) targets joints to relieve stiffness, and reduce the physical effects of stress on your body.
- ✚ Therapeutic Yoga and Restorative Yoga (II) offers chair techniques for individuals with limited motion or other disabilities to obtain overall health benefits of yoga.
- ✚ Nutrition for healthy living, weight loss, and protection against cancer.
- ✚ Learn about the New American Plate and recipes from the AICR test-kitchen, which are quick, healthy, and offer cancer-protective meals.
- ✚ Whole food cooking classes utilizing nutrition strategies to optimize energy and immune function.
- ✚ Lymphedema risk reduction practices, exercises to stimulate lymph function, and lymphedema management.
- ✚ Cognitive Behavioral Therapy techniques to decrease overall stress, anxiety, and effects of triggers. Learn and apply basic skills through interactive group activities.
- ✚ Symptom management to reduce fatigue, depression, anxiety, hormonal disturbances, insomnia, osteoporosis, neuropathy, and cognitive dysfunction.
- ✚ Weight management will discuss common myths, fads, and marketing around weight loss. Learn why many diets don't work and evidence-based methods that do.
- ✚ Apply core, strength, and flexibility training while learning lymphatic support techniques.
- ✚ Implement a personalized exercise prescription while hiking beautiful Methow Valley trails. Calculate target heart rate reserve parameters for optimum health benefits.
- ✚ Yoga Nidra, also known as yogic sleep, is a form of guided relaxation, which gives you the benefits of deep sleep without the dullness of being unconscious.

Faculty Information

Tim Burnham Ph.D.

Dr. Burnham is an Associate Professor of Exercise Science at Central Washington University. His research interests include quality of life interventions and cancer survivorship issues. He has seven peer-reviewed publications, which look at the interaction between physical activity and physical and psychosocial function.

Sue Fletcher, BS, RD.

Sue is a registered dietician with extensive experience providing medical nutrition therapy for specific medical conditions and has worked extensively with rural, underserved populations. She provides nutritional counseling on the New American Plate plus recipes for healthy eating, weight management, and cancer-fighting meals.

Mary Gunkel, RN, CYT.

Mary has been an oncology nurse for 20 years and also has a teaching degree. She currently manages an oncology program that spans four rural counties in Eastern Washington. She is a certified Yoga teacher in the Viniyoga tradition and teaches Restorative Yoga, Therapeutic Yoga, Yoga Nidra.

Katie Kemble, DNP, FNP-C, AOCNP.

Dr. Kemble has a special interest in translational research as-well-as research looking at quality of life measures in cancer survivors. She is an advanced oncology certified nurse practitioner with Level I and II Motivational Interviewing training, and Cognitive Behavioral Therapy training for clinicians.

Chandra Villano, ND.

Dr. Villano has an undergraduate degree in Exercise Physiology and a Doctorate in Naturopathic Medicine. She currently has a naturopathic consulting practice, teaches community preventative health education, and whole food cooking classes. She is a certified instructor of Yoga of the Heart for Cardiac and Cancer Patients.

Tamara Wells, BA, OT.

Tamara is an Occupational Therapist. She is certified both as a Manual Lymphedema Therapist and Neurodevelopmental Therapist and specializes in advanced problem solving for lymphedema and rehabilitation. She specializes in advanced problem solving for lymphedema and has extensive training and experience working with cancer survivors.

EASE Cancer Foundation

A registered non-profit corporation based in North Central Washington, dedicated to providing innovative educational programs for cancer survivors and enhancing cancer survivorship services in rural areas.
